2012 COMPLETE COMPLETES
Sunday
Sunday
Sunday

Spark

New for 2012, the Spark is the perfect bike for getting started in BMX. At Sunday, it's our goal to give you the best possible bike for your money, and that's why we always go beyond building bikes with the same old, entry-level parts. The Spark features a proven frame geometry to match the bikes of Sunday's team riders. Using a 13.25" chain stay length and a 75° head tube angle, the Spark has the same "ride feel" as the rest of our complete bikes, and it uses time-tested construction techniques to maximize durability too.

Available in *Black* or *Orange*

SUNDAY SPARK

The Spark is a perfect starter bike, with a pro-level geometry that's matched to an unbeatable parts selection.

Chromoly DT & Dropouts
20.5" TT, 75° HT, 71° ST, 11.5" BB, 13.25" CS

Aaron AM

The 2012 Aaron Ross AM comes with all of the great features that have made it an easy "go-to" choice for shops and riders around the world. On this year's AM you'll find our proprietary dent-resistant Wave down tube, as well as Odyssey Twisted PC pedals and Aaron Ross 2 grips. We've also included the new Sunday Freeze top-load stem and Odyssey's Quik-Slic Kable®, making brake assembly a breeze. The AM's frame uses an updated geometry for 2012 and the fork includes a custom aluminum pre-load bolt. As you've come to expect, quality and durability are emphasized throughout.

AARONROSSAM

The AM mixes Sunday's famous build-quality with Aaron approved flavor – all at an amazing price.

Sealed Cassette

Gary AM

Taller riders deserve a great bike with an even better price. That's why we built the Gary Young AM with a 21" top tube. The Gary AM is a perfect match for bigger riders who are just getting started, or for older riders who are picking up a bike again. On this year's AM you'll find our proprietary dent-resistant Wave down tube, as well as Odyssey Twisted PC pedals and Gary Young grips. We've also included the new Sunday Freeze top-load stem and Sunday Triumph XL replica bars. The AM's frame uses an updated geometry for 2012 and the fork includes a custom aluminum pre-load bolt. With an amazing spec sheet and awesome pricing, taller riders have never had it this good.

GARYYOUNGAM

The AM mixes Sunday's famous build-quality with Gary's style and a 21" top tube – all at an amazing price.

Aaron EX

The Aaron Ross EX turns it up a notch in 2012. The EX features a long list of Odyssey products that easily rivals pro-level bikes from other brands. You'll find Aaron Ross tires and matching Aaron 2 grips on board, along with a high-quality Odyssey Quadrant wheelset, modern frame geometry and a Sunday Freeze top load stem. You also get legendary Sunday engineering, like the dent-resistant wave down tube and gusset construction that provides you with unparalleled frame durability (without the weight penalty you see on fashion-driven bikes). Sunday designed, Aaron tested and approved.

AARON ROSS EX

The EX matches an impressive Odyssey parts kit to proven Sunday design and engineering for a bike that is quickly aproaching pro-level status. Aaron's signature style takes it home.

Chromoly HT, TT, Wave DT, Chain Stays & Dropouts
20.75" TT, 75° HT, 71° ST, 11.5" BB, 13.375" CS

KMC Z510H Chain

Gary EX

The Gary Young EX has miles of style in 2012 with a serious parts spec. This year's EX features a long list of Odyssey products that easily rivals pro-level bikes from other brands. You'll find Gary grips, a Quik-Slic Kable® and a front Aitken tire, along with a high-quality Odyssey Quadrant wheelset, modern frame geometry and a Sunday Freeze top load stem. Of course, you also get Sunday engineering, like the dentresistant wave down tube and gusset construction that provides you with unparalleled frame durability (without the weight penalty you see on lesser bikes). Looks good going fast, just like Gary's own bike.

YOUNG.EX

The EX matches an impressive Odyssey parts kit to proven Sunday design and engineering for a bike that is quickly aproaching pro-level status. Gary's signature style seals the deal.

Chromoly HT, TT, Wave DT, Chain Stays & Dropouts
20.75" TT, 75° HT, 71° ST, 11.5" BB, 13.375" CS

Odyssey Mike Aitken 2.25 & Path 2.10 Tires
KMC Z510H Chain

Scout

The Scout is a serious trail bike that still feels at home in the streets. For 2012, it features a solid Odyssey parts selection at a price that's tough to beat. You'll find it fully equipped for trails, featuring a 21.25" top tube, a 14" rear end, 11.625" bottom bracket height, and a 30/10 gear ratio. With a 74.5 head tube angle and proven Sunday design specs, the Scout is ready for anything. Taller riders will love the Scout as an all-around bike too. The parts group and frame spec falls between our EX and PRO bikes, so consider it an EX-Plus. Trail style, built Sunday tough.

SCOUT

The Scout is a bike that sits comfortably between the EX and PRO. You can count on classic trail style and a digger inspired geometry that's always down for a street session too.

Chromoly HT, TT, DT, Seat Stays & Dropouts
21.25" TT, 74.5° HT, 71° ST, 11.625" BB, 14" CS

Aaron Pro

The Aaron PRO is exactly what its name claims. A truly pro-level bike with an unbeatable price. For 2012, the PRO features a full Odyssey parts kit including Aaron Ross tires, Odyssey EVO 2 brakes and Monolever, Aaron Ross 2 grips, Thunderbolt cranks, Aaron Ross Principal Pivotal seat and Odyssey wheels. Available in Aaron's famous "Orange Soda" finish, this bike is a near match to the one that he rides every day. If you could peel back the orange, you'd find all of the technical and functional engineering features that Sunday is famous for. This is one of the best values that money can buy.

aaron ross pro

It's called the PRO for a reason. Part for part, the PRO comes the closest to matching Aaron's personal bike.

Full Chromoly Frame with Wave DT

Gary Pro

The Gary PRO is exactly what it claims to be. A truly pro-level bike with an unbelievable price. For 2012, the PRO features a full Odyssey parts kit including Aitken and Path tires, Odyssey EVO 2 brakes and Monolever, Gary Young grips, Thunderbolt cranks, Gary Young Principal Pivotal seat and Odyssey wheels. Finished to match Gary's personal bike, the graphics take their inspiration from auto racing. (Always fast, just like Gary). Underneath it all we've included the technical and functional engineering features that Sunday is famous for. This is one of the best values that money can buy.

12

GARY YOUNG

PRO race car or PRO BMX? It's awesome anyway you look at it. The PRO is as close as you can get to owning the same bike that Gary rides every day.

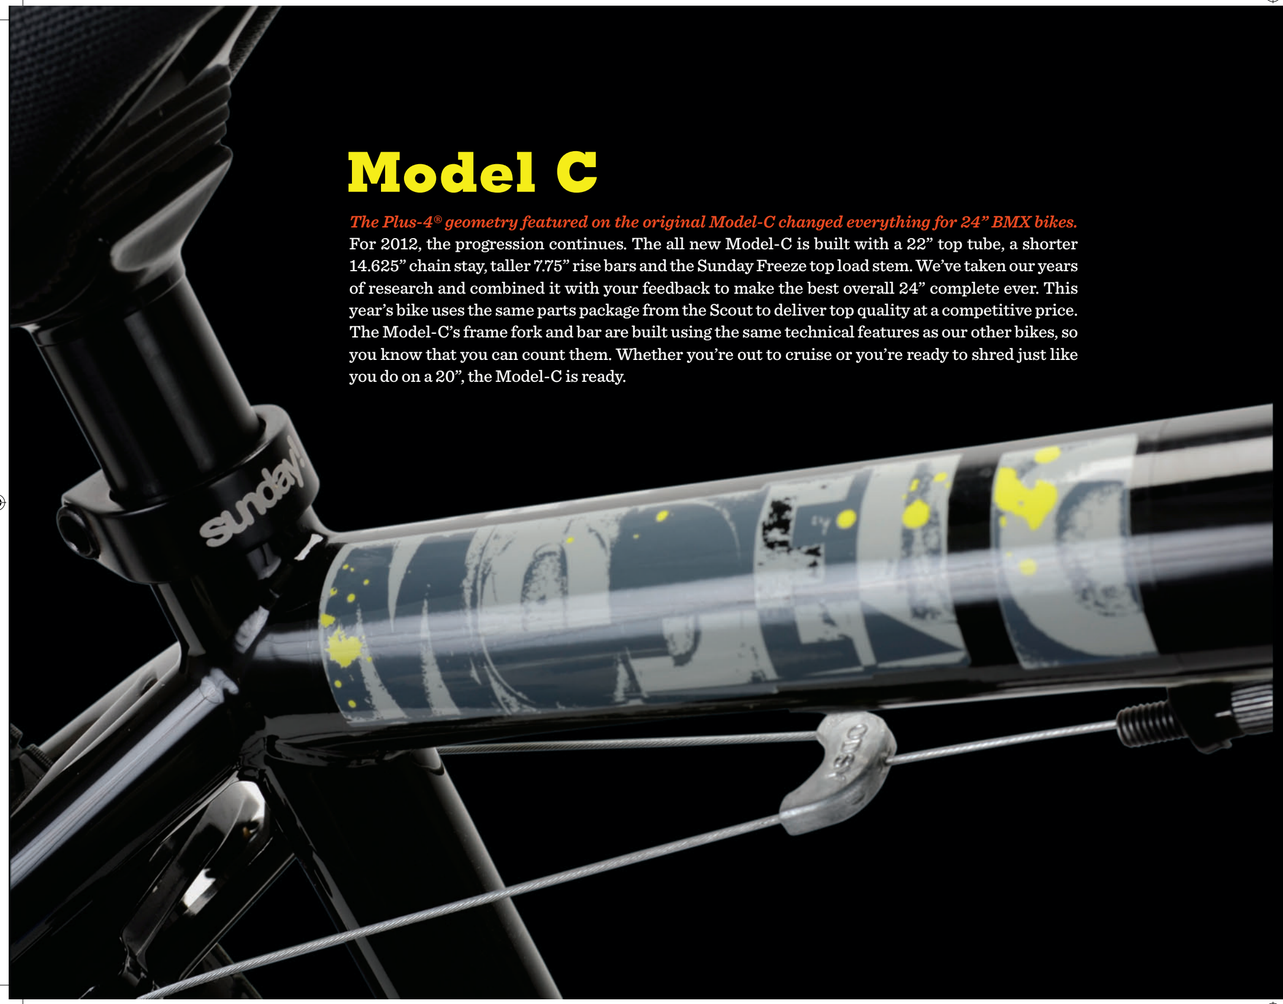
KMC Z510HX Chain

Model C

The Plus-4® geometry featured on the original Model-C changed everything for 24" BMX bikes. For 2012, the progression continues. The all new Model-C is built with a 22" top tube, a shorter 14.625" chain stay, taller 7.75" rise bars and the Sunday Freeze top load stem. We've taken our years of research and combined it with your feedback to make the best overall 24" complete ever. This year's bike uses the same parts package from the Scout to deliver top quality at a competitive price. The Model-C's frame fork and bar are built using the same technical features as our other bikes, so you know that you can count them. Whether you're out to cruise or you're ready to shred just like you do on a 20", the Model-C is ready.



MODEL C

The Model-C created the new 24" BMX standard. Go cruise or shred it like a 20". The Plus-4® geometry has you covered.

Forecaster Special

For the first time ever you can finally buy the exact same bike that the Sunday team rides. The Forecaster Special throws all of the typical OEM pricing concerns out the window to give you the best complete bike available today. What's so special? How about genuine, 41-Thermal® replacement guaranteed parts like an aftermarket Sunday Forecaster frame, real Sunday Tall-T handlebars, a Morning 2.1 fork and Odyssey Thunderbolt cranks? We didn't stop there. You'll also get the new Odyssey Lincoln top load stem, and an endless supply of parts like Evo 2 brakes, Aaron Ross tires, a Quik-Slic Kable® and a complete Odyssey Hazard Lite wheelset. The Forecaster is like building a new bike from scratch, except we did all the work for you (and now we're passing the savings along). No holds barred. Nothing compares to the Special. It's ready for the best riders in the world straight out of the box.

The Forecaster Special has no equals. When you build a complete using the best aftermarket parts in the world, you'll end up with a bike that can handle anything you throw it. All day, every day. The Special isalways ready to rip.
